About Aregi

Aregi company was founded in the sunniest - western part of the Armenian Aragats Highlands. Aregi in Armenian means **sunny** - the best description of Armenia and Armenians!

Based on old Armenian traditions of making dried and carefully preserving fruits and vegetables, Aregi modernizes the industry, creating new quality criteria and setting a modern trend in the production of dried fruits and vegetables.

**ZERO
CARBON
FOOTPRINT**

At the same time, it has a **zero carbon footprint** on the environment, since the production is powered by solar power plant.

Working to achieve the best results in the production of **premium quality** dry fruits and vegetables, we adhere to our vision of **creating healthy and natural products**, while developing infrastructure at all stages of production and preserving the ecosystem of the entire region.
